2019/6041/P		06/02/2020 15:56:52	PETITNOBJ E	I strongly object to this roof terrace and insertion of side window. It will directly overlook the bedroom windows at the rear of 162B Iverson Road. It will remove any privacy since the terrace would look directly into the windows and it will block all existing light. It will also significantly create noise and disturbance from use. Permission must not be granted.
