04 February 2020

Dear Mr Chan,

**TOWN & COUNTRY PLANNING ACT 1990 (AS AMENDED)
NATIONAL PLANNING POLICY FRAMEWORK 2019**

National Hospital For Neurology And Neurosurgery Queen Square London WC1N 3BG
Internal and external alterations to basement, ground floor and second floor level; including installation of substation and an external condenser unit.

Recommend No Archaeological Requirement

Thank you for your consultation dated 22 January 2020.

The Greater London Archaeological Advisory Service (GLAAS) gives advice on archaeology and planning. Our advice follows the National Planning Policy Framework (NPPF) and the GLAAS Charter.

NPPF section 16 and the Draft London Plan (2017 Policy HC1) make the conservation of archaeological interest a material planning consideration.

Having considered the proposals with reference to information held in the Greater London Historic Environment Record and/or made available in connection with this application, I conclude that the proposal is unlikely to have a significant effect on heritage assets of archaeological interest.

Any information held by the organisation can be requested for release under this legislation. We will always store your personal details securely. We collect data that you provide to us and only ever collect the information we need in order to carry out our statutory purposes and that helps us deliver and improve our services. We will only share personal data when we are required to by law or with carefully selected partners who work for us. If you would like to know more or understand your data protection rights, please take a look at our Privacy and Cookies Policy <http://www.historicengland.org.uk/terms/privacy-cookies/>. Historic England is committed to achieving equality of opportunity as a service provider and employer.

The site lies within an archaeological priority area and has the potential for archaeological remains associated with the civil war defences. That being said, the only impact from the proposed works will be from the localised service trenches in the basement. These works are of such a small scale that it is unlikely that they will uncover any meaningful or significant archaeological sequence.

No further assessment or conditions are therefore necessary.

This response relates solely to archaeological considerations. If necessary, Historic England's Development Advice Team should be consulted separately regarding statutory matters.

Yours sincerely
