To whom it may concern

Re: 9 Holly Terrace, Planning application references 2019/4339/P & 2019/4919/L

I write to confirm that we have no objection to the proposal by our neighbours at No. 9 Holly Terrace, The Robert Anderson Research Charitable Trust, to render the side wall of our rear extension which faces onto their property. The other two elevations of the extension are already rendered so this proposed change will give a consistent appearance to the extension.

The only stipulation we have is that the render includes a breathable membrane, to avoid any build-up of moisture.
