2019/5909/P	The Belsize Society	08/02/2020 19:19:33	OBJ	<p>Objection</p> <p>The proposed extension is inappropriate to its context:</p> <ul style="list-style-type: none">- The proposed extension further exacerbates the fragmented reading of the existing property, presenting itself as an extension to an extension which is already out of scale relative to the neighbouring properties.- The geometry and design of the proposed extension does not relate well neither to the original property nor its existing extension.- The level of the extension is characterised as a 'basement' while in reality it is a 'lower ground' fronting the rear garden.- The proposed glazing on the sides and top of the extension would impact on amenity of neighbouring properties with light spillage and loss of privacy.
