Please provide a brief description of the building or part of the building you are proposing to demolish

Existing single-storey outbuilding on the south side of the rear yard. It is not clear whether or not this building originally formed part of the pub, although it had been integrated and largely rebuilt by the early 20th century. The original uses are unclear, but it has clearly always been a secondary service space used for storage or ancillary functions. The fabric has been altered substantially both internally and externally to the extent that the outbuilding as existing possesses little if any architectural or historic interest and makes little if any contribution to the overall significance of the listed building.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

In order to make way for a new "garden room", which will improve the functionality of the public house. The demolition of the poor quality, later outbuilding addition will allow better views of the more characterful elevations of the Listed Building and provide an overall enhancement to the design of the courtyard space, which is currently unattractive and under-utilised.
