2019/5707/P	Sarah Hughes	19/02/2020 23:23:42	OBJ	I object to this proposal as the structure would be higher than Is standard in this road. It would block out a lot of light to my property. My garden is small anyway and would find the lack of light oppressive. I have a Disabled child and we make use of the garden for space. Not only would The finish product be oppressive, but the work itself my son would find distressing
