Urgent FAO Case Officer Rachel English 2726 Re: Planning Application - 2020/0473/P

Planning Application - 2020/0473/P

Regarding this planning application

• Application Registered - 11-02-2020
• Comments Until - 15-03-2020

I have just documented a One Housing Group Ltd development partner Countryside representative put the temporary portacabin office/meeting room in place in front of our homes today 15:38 ahead of planning permission being granted or even having our comments submitted or considered.

We have not even reached the planning application deadline for comments on this application

Such a disappointing and disrespectful start for One Housing and Countryside, in managing what is already an overwhelming period of at least 5 years of looming redevelopment construction on our doorstep

Please can planning support this residential community in setting the right tone for this major environmental concern and find out why they feel able to go ahead with this work before their application is properly consulted upon.

Thank you for your urgent help in this matter

Photos from a little earlier today 15:38 - 16:06 below

We were already disappointed with the total lack of communication or consultation by our housing service provider on this as documented here - https://ovalroadestate.tract.network/news#h.p__fXUvM1GxS4T

One Housing need to show a little respect for their customers and be professional with this estate and land that they are responsible for.

Sincerely
