All the information available is the total destruction of a healthy mature tree in this conservation area. I therefore have no choice but to absolutely object to the removal of this ash tree. With the pollution in Camden and indeed all of London being at severe levels we need every single tree to be nurtured and cared for. Excuses such as landscape gardening or light reduction to a dwelling are simply not good enough. Equally plans to build where a tree is living are unacceptable. The removal of a tree causes quite an imbalance in the eco system and effects all the surrounding nature and wildlife. I strongly object to this proposal.</p>
