2020/0915/T	Scott Lister	28/02/2020 09:27:57	SUPPRT	<p>I would like to write to support the felling of this tree as it is a danger to me, my family and the property I live in.</p> <p>This particular tree is located extremely close to the boundary wall between 10 Adamson Road & 58 Eton Avenue and is causing severe damage to the wall which divides the properties and also the paved ground on the Eton Avenue side of the wall which is now raised and uneven as a result of the roots.</p> <p>The damage the tree has caused to the wall over many years has caused the wall to bow to a point where it is now in severe danger of falling over and hence the danger it is causing. The roots of the tree which are clearly expanding under the paved ground (that is now raised and broken as a result) are within a metre of the external wall of 58 Eton Avenue and as a result are likely in the short term to start causing structural damage to the building and possible subsidence as well.</p> <p>Furthermore I have been shown a professional 3rd party opinion from Acacia Tree Surgery by the owner of Flat 1, 10 Adamson Road which details that the tree has a large crack and major signs of decay and is 'very dangerous in high winds' and that it is 'advisable to remove this tree as a matter of urgency'.</p> <p>Given all of the storms and high winds currently across England this has left me feeling very worried about safety in and around my property.</p>
2020/0915/T	Dee Pelk	28/02/2020 13:00:36	OBJ	<p>I note the neighbours concern and support for the felling of this tree but would expect that a proper report (not merely a comment on an invoice) would be submitted in support of this application - photos at the very least should be attached.</p>
2020/0915/T	Michael Reid	29/02/2020 18:51:43	COMMNT	<p>This tree was wrongly issued with a preservation order and needs to be cut down because it is destroying our back wall at 58 Eton Avenue NW3 3HN where I am a leaseholder and threatens to do damage to the house</p>
2020/0915/T	Marcus Anselm	29/02/2020 09:27:24	SUPPRT	<p>I own flat 2 in 58 Eton Avenue with my external flat wall being closest to this tree. I don't feel safe with the state of the tree, wall. I have seen sight of a report from Acacia Tree Surgery who state the tree is in decay and is a danger to life and property.</p>
