Drawing Nos: 1804-151; 1804-152; 1804-153; 1804-155; 1804-156; Design and
Access statement (dated January 2020)

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: 1804-151; 1804-152; 1804-153; 1804-155; 1804-156; Design and Access statement (dated January 2020)

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

1 Reasons for granting permission.

It is proposed to install a metal storage facility to accommodate gardening and other maintenance equipment. It would be located adjacent to an existing fence which would provide some screening from the pathway on the other side of the fence. The location has been chosen as it is one of the few remaining open spaces without a clear purpose (e.g. play / landscaped area) as well as it being centrally situated on the campus and therefore accessible to all areas.

The facility would be of metal construction, green in colour to blend in with the surrounding vegetation. Its scale, form and design is considered to be appropriate for its functional purpose and it would clearly be a reversible and incidental addition to the campus. Furthermore, it is located within the campus and although there is a public footpath through the site, it does not form part of a streetscene as such. As such it is considered to preserve the character and appearance of the wider conservation area.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

By virtue of its scale, nature and location, the proposal is not considered to cause any adverse impacts on the amenity of adjoining residential occupiers.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.

No 020 7974 4444) . Licences and authorisations need to be sought in advance of proposed works. Where development is

subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
