Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 14 Gloucester Crescent is a grade II listed building that forms part of a curved terrace of 20 houses. Built in 1840-45 it is constructed from yellow stock brick with stucco dressings. The hipped roof is covered in welsh slate tiles and the windows are timber sashes.

The proposals are to underpin the rear two storey closet wing. The underpinning sits directly underneath the perimeter of the closet wing and underneath a small section of wall that forms the main body of the house. The underpinning will stabilise the closet wing preventing further damage and ensuring it's longevity.

The proposed works will not harm the special interest of the grade-II-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
