Details of the pre-application advice received

The Council's position has been seriously considered and acted upon. There have been three meetings between the Church and its professional advisers to explore alternative schemes, as suggested by officers, as well as pre-application advice sought from Kate Henry and Antonia Powell. The product of this process is that the Church has developed a reduced proposal, indicatively shown as 87 photovoltaic panels, on the south facing nave roof that will cause less visual harm. Other methods of generating renewable energy have been investigated such as solar slates, ground source heat pumps and wind turbines, which have all been found to be unfeasible.
