Informative(s):

- 1 16 Monmouth Street is a grade II listed building within the Seven Dials conservation area. The building forms a terrace of three that were constructed in the late 17th century but were altered during the 19th and 20th century. Elevations are of multi-coloured stock bricks, windows are timber sashes and the shop front is 20th century addition.

The proposals are for alterations to shop signage and the installation of new furniture internally to accommodate the requirements of the new shop tenants.

The shop signage includes a small painted sign on the shop window and a hanging sign within the existing bracket. Neither sign is internally illuminated. The hanging sign is painted timber and is entirely appropriate for the building and the character of the conservation area.

Internal alterations include the erection of shelving and a till. The plan form remains intact and fixtures and fittings do not impact the fabric of the listed building.

The proposed works will not harm the special interest of the grade-II-listed building.

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
