## 4.1.4 BAA Brick Slip Example

St Mary at Hill is a completed project by Ben Adams Architects

- Brick slip cladding throughout
- Located in close proximity to listed buildings
- Brick slips wrap around corners
- Deep brick reveals at windows using corner slips

## 4.1.5 Other Brick Slip Examples

### Leighton Road Residential Apartments

• Kentish Town
• On the edge of Kentish Town Conservation Area
• Deep brick reveals at windows
• Brick slip finish and colour in keeping with the local context

### Furnival Street Apart-Hotel

• City of London
• Within Chancery Lane Conservation Area
• Deep brick reveals at windows
• Variety of brick colours

## 4.1.6 Brick Slip Locations

A combination of facade construction methods are proposed.

Brick slips
Traditional brickwork
Roofing:
 a) brick
 b) clay tiles/slate

The following diagrams highlight the locations of the different facade systems.
