Left:
Aerial photograph showing the site context prior to works on site. The red outline shown is approximate and shows roughly where the raised pergola terrace sits in relation to the original lawn and hard surfacing

Left:
Topographical survey showing existing levels, contours, extent of hard surfacing and vegetation for context. Pink dotted line shows extent of pergola terrace on plan.

Left:
Section AA through centre of pergola terrace – red dashed line shows existing ground level.

41 Frognal

Left:
 Photograph taken from the lawn looking north showing the site context prior to works on site. The line shown is approximate and shows roughly where the raised pergola terrace sits in relation to the original lawn and hard surfacing

Left:
 Elevation showing raised pergola terrace at 88.86 (500mm above original lawn level)
