Would you clarify to me who and what is required to get TPOs on the whole Hillway avenue of limes?

I understand they are "owned" by HLE , but is it Camden's job to place protection orders on them?

Clearly they are all at risk now as your granting of permission to fell will be used by every other house on Hillway that has a bit of subsidence... and as we know , most suffer from that , and insurers love to fell trees.

thankyou
