Hi Rachel,

With reference to the above planning application.

Having read through the very limited amount of information available I can see no reference as to how the temporary facility will access an electricity supply, which it will surely require.

As a direct neighbour this is of great concern to me. I fear that generators may be used which cause great noise disturbance and are often left running throughout the night to maintain security systems etc.

Do you have any information concerning this or are you able to request this from the applicant.

If easier please feel free to contact me by telephone.

Kind Regards,

Steven Stokes
