2019/6145/P	Lesley Angel	07/03/2020 15:57:35	SUPC	<p>While I am sympathetic to the family needs for the proposed extension, I am concerned that my privacy would be compromised by the first floor window which would overlook my kitchen/diner, conservatory and garden.</p> <p>I understand that the original decorative rear window is to be re-used, but this is not stated on the plans that this proposed rear window would retain its present obscured glass. If there is to be no guarantee of frosted glass then I would have to object on grounds of overlooking my property at close quarters.</p>
2019/6145/P	Ms M E Hill	10/03/2020 11:37:04	SUPC	<p>I live two doors away from this application. The upper storey added to this building will affect the view from my downstairs kitchen side window. At the moment I look out from this window to see sky. The new development will block this view and take away my natural light.</p> <p>The only other window into my kitchen is on the front and this too is affected by the back of the opposite building in Alma Street.</p> <p>Therefore this current building application will make my kitchen darker. As a retired older person I spend most of my time in my kitchen as at the moment it is the brightest room on my ground floor.</p>
2019/6145/P	J Bradshaw	07/03/2020 16:34:07	SUPC	<p>While very sympathetic to the need for an extra family bedroom, it is also felt that the revised plan (31/01) for a flat roof on the extension is not as architecturally sympathetic to this Victorian building as the gable roof in the original application. As the extension not only overlooks but overbears the house/s directly behind in Alma Street, this is a strong consideration for us. Also, to give a degree of privacy to our bathroom, it is hoped that the rear window in the proposed extension is in stained and frosted glass - as is the original window in the back wall that will be removed.</p>
