2020/0625/P	Jamie Lynn	08/03/2020 12:20:39	SUPPRT	A beautiful design that will be a standout addition to the community.
2020/0625/P	Jamie Lynn	08/03/2020 12:20:15	SUPPRT	A beautiful design that will be a standout addition to the community.
2020/0625/P	Erlend Lee	05/03/2020 14:00:09	SUPNOT	<p>I have examined the plans and diagrams of this exciting project and I believe the proposed building will much improve the general look of Vicars Road.</p> <p>The recently completed 'St Martin's Walk' of 21 apartments, together with the semi detached pair of houses, 16 and 18 Vicars Rd, are, in their way, handsome and certainly an improvement on the old garages they replaced, but are thought by a number of us local residents to be somewhat 'blocky', 'angular and austere.</p> <p>The proposal to build the new 20 Vicars Rd "The Cloud House", introduces a valuable 'softer' element to the street's dressing, with its hoops and curves and decorations. It is just what Vicars Road needs and will lighten and humanise the street.</p> <p>The present 'Verger's Cottage' will not be a great loss. I lived there through 1971-75. The rooms are tiny and the inner walls very thin. A sound anywhere in the house is heard throughout. For 40+ years I have lived with my family at 53 Vicars Rd, adjacent to the church and facing the proposed Cloud House. I look forward very much to seeing its completion.</p>
2020/0625/P	Chris Dyson	05/03/2020 11:31:22	COMMNT	<p>Having seen the various iterations of this family home design, I firmly believe that while it is unusual and different from its immediate surroundings it will make a significant contribution to the design quality and variety of the locale.</p> <p>London is a unique city largely made up of villages and individual land holdings - this project not only reinforces this fact but does so in a interesting, reasonably modest and modern way, being representative of its time, whilst displaying a character and flair too often missing in modern house design.</p>
2020/0625/P	Pasqualina Christodoulou	06/03/2020 14:13:21	COMMNT	<p>I have seen all the drawings and it looks like a really nice addition to the area.</p> <p>I am looking forward to seeing this completed.</p>
2020/0625/P	Chris Romer-Lee	10/03/2020 08:43:27	SUPPRT	How refreshing to see such delightful and erudite architecture. The existing house is of no architectural merit and is not fit for purpose. This development creates appropriate density to an undeveloped plot. Careful consideration has been applied to the massing and presence on the street. The application should be approved for its positive contribution to the rich and varied architecture of not only the local area but London as a whole. London has a long history of architects' homes that challenge and delight. This is one of those projects and Camden should support the detail and flair this architect has brought to the borough.

2020/0625/P	Nebil Avas	08/03/2020 12:25:18	SUPPRT	<p>Letter of support re:</p> <p>The Cloud House Planning Application number: 2020/0625/P</p> <p>Dear Sir/Madam,</p> <p>I am writing to you regarding the planning application for 20 Vicars Road, Kentish Town.</p> <p>Vicars Road has a culmination of properties that have been erected over the years and we can see a real mix between contemporary and a traditional architectural style that these properties possess.</p> <p>Peter Morris is an incredibly talented Architect and has helped realise the vision for many clients, designing for both residential and commercial properties all over the UK. The time has now come for him to direct his focus and flair on a new project to build his dream home.</p> <p>20 Vicars Road would not only be home to Mr Morris and his family but also be the end result to many years of experience gained from being a prolific and creative Architect.</p> <p>London is home to a diverse collection of architecture. People from all over the world visit and long to discover the urban city scenery. 20 Vicars Road would be considered a hidden gem amongst the properties within London.</p> <p>The Cloud House would be a contemporary compliment to St Martin's Church and would certainly elevate the look and feel of Vicars Road, delightfully surprising people who would walk past and appreciate this incredible piece of design.</p> <p>I personally would love to see the application for 20 Vicars Road approved and I look forward to seeing it stand proud for us all to appreciate.</p> <p>Kind Regards</p> <p>Mr Nebil Avas</p>
2020/0625/P	Tim Matthews	07/03/2020 11:00:09	OBJ	<p>This proposal is an unsightly eyesore and not at all inkeeping with the surrounding area, both modern and Victorian. In fact, following the disastrous redevelopment of the Lismore Circus in the 1960s it would be extremely unfortunate to lose another one of the few remaining Victorian buildings here. Especially for it to be replaced with this hideous design - such eccentric self-regarding designs may please the applicant but they won't please anyone else. The support heritage document is complete bunkum.</p> <p>Ugly unpopular buildings resulting from the thoughtless whims of architects are appearing all over the borough and all over London, and more can not be encouraged.</p> <p>This application should be refused.</p>

2020/0625/P	Timothy Hill	08/03/2020 18:43:35	COMMNT	I approve of this development, it will enhance the area and will complement the Council's development initiative for this area.
2020/0625/P	Edmund Sumner	05/03/2020 15:24:47	COMMNT	I think this is joyful little scheme and should be encouraged, I know the Architects work and find it fantastic, I'm strongly in favor of this scheme
2020/0625/P	David Blaikie	05/03/2020 18:02:26	NOBJ	<p>I write in support of this application.</p> <p>The vitality of modern London is a product of the continuum of ground breaking, often surprising, high quality development. It is this that allows London to lead in design, architecture and society and be the envy of all other world capitals.</p> <p>This house is respectful of the scale of its neighbours and is woven with great skill into the built context which surrounds it to create living spaces of a very high quality.</p> <p>Richness of texture and carefully considered composition will create a building that enriches and compliments Camden's built environment and the opportunity to allow it to be built should be enthusiastically grasped.</p>
2020/0625/P	Alison Taylor-Stokes	06/03/2020 11:08:50	NOBJ	This is an exciting project that will add to the architectural context of the street and surrounding area. It is refreshing to see an planning application that is innovative and that has been well thought out in conjunction with pre-planning discussion with the Local Authority. Can't wait to see this built.
2020/0625/P	Charlotte Beyazian	05/03/2020 11:27:34	NOBJ	<p>I, Charlotte Beyazian, Head of administration at Stewart International School & La Petite Ecole Bilingue Kentish Town, located at 22 Vicars road LONDON NW5 4NL, have had the great pleasure of being presented with the future architectural project known as The Cloud House, 20 Vicars Road designed by Peter Morris.</p> <p>All plans, decisions drawn in line with the project have been duly explained to me and I see absolutely no objection to any of them; the upgrading project regarding the shared alleyway between our two buildings, receives my full support, as it will bring a huge enhancement to our own premises while ensuring all health and safety matters have been carefully thought through.</p>
