2020/0728/P	Ms V Mayers	07/03/2020 14:55:06	PETITNOBJ E	<p>Although in part I agree with the need for a new medical centre, which I feel is in great need of for the area, but, and as a long term resident I totally object to the height of the building and feel that not only will it tower above the other neighbouring buildings, it isn't in keeping with them also.</p> <p>It will restrict visibility for the surrounding residential properties, including mine in College place, (the street behind), and I feel the building will 'close in' the current feel of openness of the area, giving it a more oppressive and claustrophobic feeling - something I believe we should be working hard to avoid.</p> <p>I propose that should this building be given the 'Okay', that it should be in keeping with the surrounding area - some of them historical - for example 'Royal Veterinary College' and the many period properties which line the route of Royal College Street and certainly NOT the proposed 5 Storey AND rooftop! Absolutely NOT.</p> <p>I therefore object to this Planning application and sincerely hope that mine and other residents objections are seriously considered please.</p>
