2020/0977/T	Mrs SMT Tunstall Mr Jeremy Tunstall	05/03/2020 16:45:49	OBJ	No documents have been provided offering reasons why this tree should be felled. Therefore we wish to object to this proposal to cut down a tree subject to a tpo. Trees in this conservation area contribute to Camden's bad air pollution reduction and carbon storage. This mature tree is also an important feature in the urban landscape offering habitat for birds and insects. From our point of view, living at 19 South Villas NW1, this tree with others provides us with green rear view and screens the houses in St Augustines Road and screens us from them. It would be greatly missed by us if felled. If the tree has to go for safety reasons, then we would like to see it replaced by a native species with nature conservation value.
