

GROUND F

(f) that the steps required by the notice to be taken, or the activities required by the notice to cease, exceed what is necessary to remedy any breach of planning control which may be constituted by those matters or, as the case may be, to remedy any injury to amenity which has been caused by any such breach;

We are attaching drawings which show a scheme which has just been submitted to the LPA which encloses the whole antenna array etc in GRP – this is briefly discussed on Grounds B and C. The appellant would argue that this would remedy any injury to amenity and would, should the appeal fail on grounds A, B and C, be the most pragmatic solution to ensuring continued coverage to the area whilst reducing visual impacts.

Appendices

- Drawings showing antennas etc within GRP enclosure
- Visualisations showing GRP enclosure
