- 1 Reasons for granting listed building consent (delegated):

12 Gray's Inn Square together with Nos 13 and 14, the Gatehouse and attached railing are listed Grade II*. The three terraced chambers and gatehouse fronting Gray's Inn Road were built c1684-88 with later restorations. The buildings, which stand at four storeys plus cellars, are constructed of brown brick with red brick dressings with brick bands between floors.

The main cellar access retains its original brick floor however this is not the case for the cellar space on the west side of the basement (the subject of this application) which has been much altered and now has a concrete slab floor, modern wall finish as well as structural intervention at ceiling height.

This application is for the creation of night security rest room within this existing cellar space. All the proposed works are internal and do not affect the external appearance of the building.

The application has been advertised in the press and by means of a site notice. Historic England issued a letter of authorisation for the case, which was stamped by the NPCU.

The site's planning history has been taken into account when making this decision

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
