NTQ SITE SPECIFIC

SUMMARY

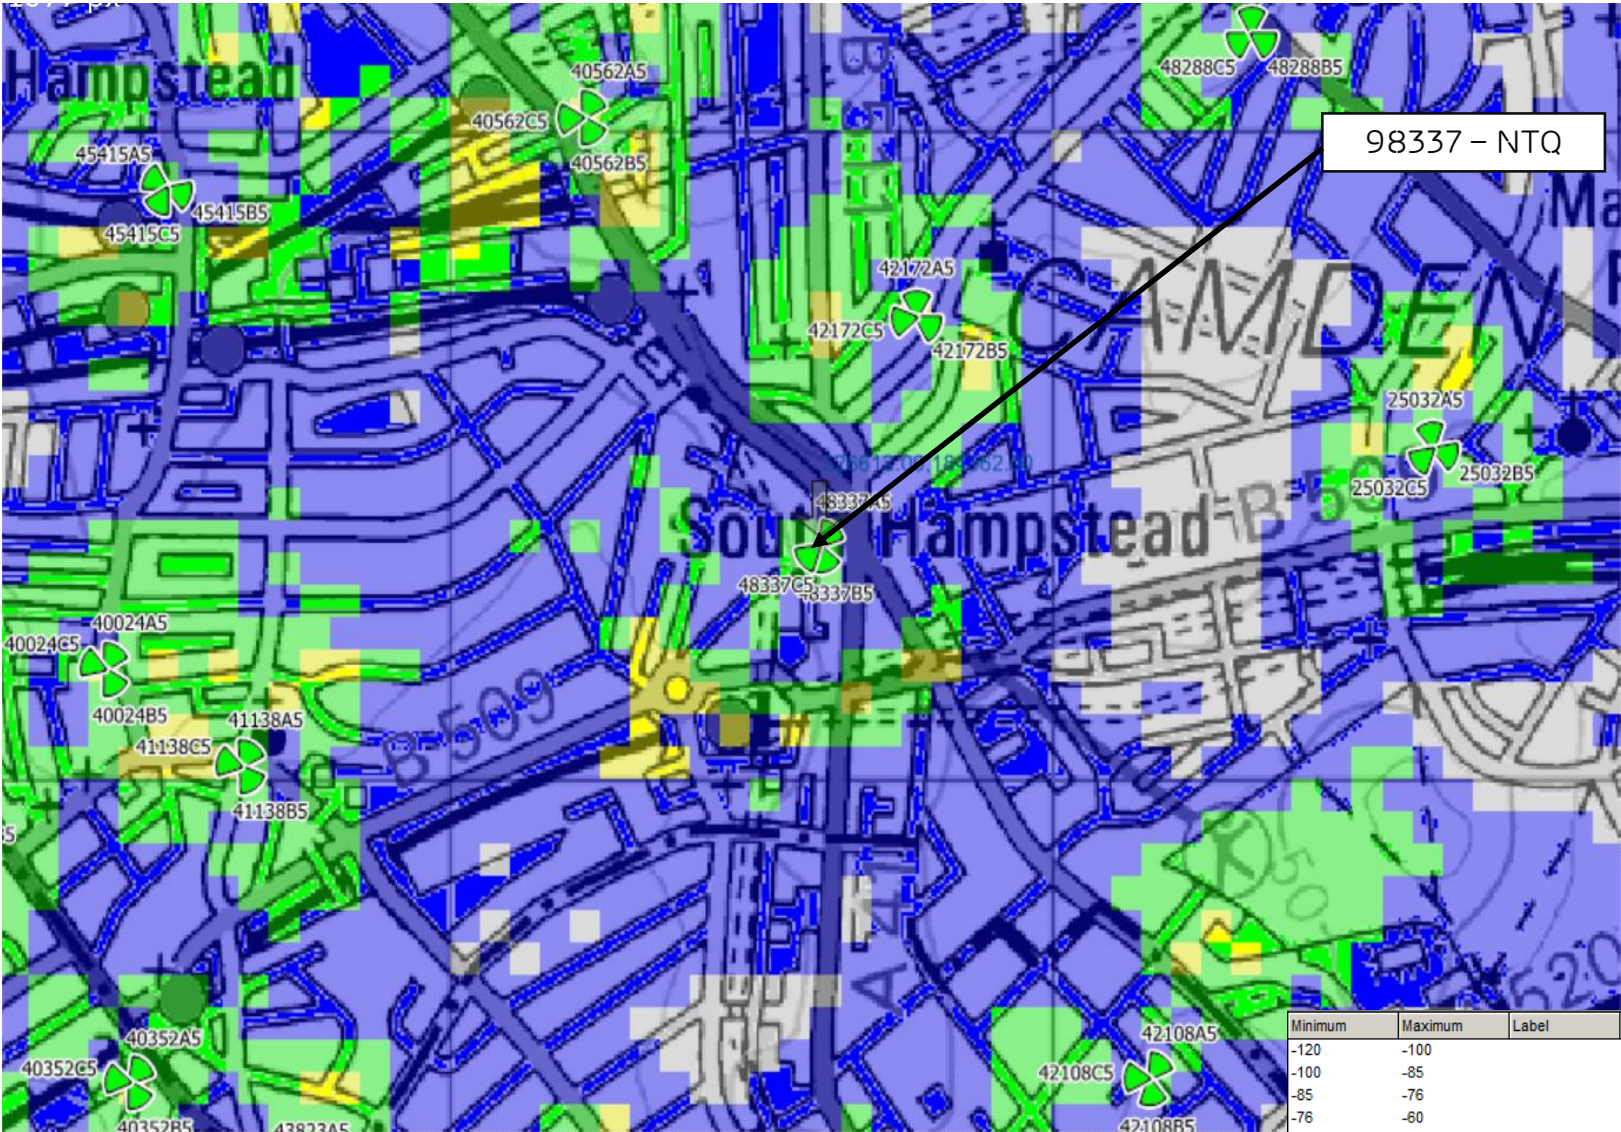

- For 98337 NTQ, Perm REP_77547 is already approved, however due to planning issue antenna height is changed from 40/40/40 to 30.97/30.97/29.57 and azimuth also needs to be changed from 0/120/240 to 0/160/240.
- Because of this changes there is coverage loss towards east, so to recover this loss 3UK consolidation is recommended on nearby EE 2G/4G only live site (14396).
- In attached plot earlier nominated config and new proposed config along with 14396 is considered to see the coverage impact.
