5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

The project consists of an outbuilding that aims to serve as a gym and a utility room directly surrounded by the garden within the property. The outbuilding has two openings to the garden: a sliding glass door that gives entrance to the gym and a hidden door giving entrance to the utility. The frames of the sliding glass doors are to be in powder coated aluminium with black finish. The proposed layout for the rest of the garden takes into account the existing levels and subtly adapts areas in order to create a barbeque area and dining area which will provide the client with an enjoyable space to dine outdoors. The connection between the dining area and the outbuilding takes place through flagstones set on the floor as stepping stones. The life pond - besides being aesthetically pleasing - will serve to improve biodiversity in the garden. The proposed new terrace will be paved with porcelain tiles, and the counters and sitting area will be rendered with pigmented mortar in order to give a visual appearance of concrete.
