FAO Emily Whittredge
Camden Planning
20 March 2020

Dear Ms Whittredge,

Re: Development at 3 Copperbeech Close, NW3 5RB (insert application reference from notification)

I live in [REDACTED] Daleham Gardens, London NW3 5DE (entrance in Akenside Road next door but one) and own the freehold to 2 Copperbeech Close.

Any prospective building development could have an adverse impact on both of my properties.
I am particularly concerned regarding two issues and seek your help.

1. I have studied the plans. It is not clear from the plans whether the new development will over shadow 2 Copperbeech (e.g. restrict the right to light). Please could you explain the implications for the neighbouring properties and confirm that this consideration will be taken into account as part of the planning process. Obviously, I would object to interference with my rights.
2. In terms of the building work itself. I am particularly worried that any structural building work might cause serious damage to my property.
Once again, please can you advise me on this.

Kind regards,

[REDACTED]
