Dear sirs

With reference to yr letter dated 12 of March received by us only a couple of days ago regarding the above reference for the pruning of the trees at 1 Chesterford GardensNW3 7DD for which I strongly object, and I would like to draw yr attention to the following.

We are leaving at 25 Redington rd and our garden's boundaries is with the No 1 Chesterford gardens. These Firs trees with their greens provide a nice view and pleasure to the whole neighbourhood do not block any light to our gardens or to no 1 Chesterford and if you prune them by 4 meters the only thing we will be seeing from our garden will be only bricks and mortar of the other houses.

In fact the owner of no 1 Chesterford has requested 3/4 weeks ago the owner of 23 Redington to prune the Trees of 23 hanging in nos 1 garden and in doing so he overdid it and not only that he prune as well our olive tree without any permission.

When he was confronted he said that may be his gardener have cut a bit more than he requested them, or may be our gardener did it when we don't have one. We take care of our garden. He also advised that the reason he pruned those trees, as he will apply as well to prune the Firs is that he intends to apply for planning permission to extend the garage to create a coach house. Of course we told him straight away that we will object to that.

It is clear to us that the only reason he is applying to prune the trees is for his own financial benefit by creating a coach house, and we are sure that the Firs will not be prune by 4 meter but to that size so that he will be able to accomplish his plans I therefore strongly object to this pruning.

I attach herein below few photos showing the Firs trees, and also the two ovoviviparous trees in my garden which before they were the same and now the one is much smaller.

From the pictures you can see that the owner of no 1 Chesterfield Gardens he extended the perimeter wall into his drive in to create a private garden in the front although before it was an open drive in and he planted small cypress trees .

Thanking you and always at yr disposal for any clarification you may require you can contact Mrs Andrea Tsentas mot [REDACTED]

Yr sincerely

Andrea Tsentas
