2020/0964/P	Francoise Findlay Chairman Elsworthy Residents Association Member of BCAAC	01/04/2020 18:18:45	SUPPRT	<p>It is hoped that this second application to install solar panels will be granted permission. The visual impact on the CA will be minimal from Elsworthy Road or Primrose Hill Road and the view from Primrose Hill is blighted far more by the Adelaide Road Tower blocks or even the low St Paul's School buildings.</p> <p>However adverse the visual impact might be considered by a few, it is far outweighed by the environmental benefit resulting from the renewable energy generated.</p> <p>Many residential alterations in the Elsworthy CA have included photovoltaic roof panels in order to help gain permission when the applications have included energy guzzling basements with swimming pools, cinemas, garage parking lifts and banqueting suites. These have all been allowed.</p> <p>It would therefore be iniquitous to find reason to refuse this application which will not only benefit the Church but the community and the environment at large.</p>
