Hi Rachel,

Thanks for this email.

I have looked at the revised drawings and am happy to withdraw our objection as the rear balcony has been removed. The replacement is acceptable. Thank you.

I would urge you to reconsider our request for a CMP. There is real community concern about building works in the area, and I would argue that it is in the applicant's own interests to have a transparent and robust CMP.

many thanks for all your work on this application.

Hope you are keeping well and safe,

All good wishes,

Richard

Hi Richard,

Thank you for your comments on this planning application. We have received revised drawings removing the balcony at first floor level along with a few changes to the rear fenestration. The revised drawings are on our website [here](#).

I don't consider that a Construction Management Plan is required in this instance. The site has a parking space onsite which could be used for a skip/storage of materials and the scope of works is not sufficient to require a CMP.

I was wondering if you still wish to object to the application?

Kind regards,

Rachel
