Informative(s):

- 1 Reasons for granting permission-

The shopfront works as now revised involves the installation of an open brick-bond style roller shutter blind and replacement of the left hand door with a window to match existing.

The shopfront alterations and new internal shutter blind are minimal in nature and appropriate in design, materials and location. They will not harm the appearance of the ventilation shaft, the character of the station square and conservation area, or setting of the adjoining listed station.

Special regard has been attached to the desirability of preserving the listed building, its setting and its features of special architectural or historic interest, and of the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.66 and s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

The proposals are not considered to cause any adverse impacts on the amenity of adjoining residential occupiers.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies A1, D1, D2 and D3 of the London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework 2019.

- 2 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team London Borough of Camden 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel.
