Dear Kate,

HCAAC Objects to the proposed height of the replacement walling if at 3m as stated in HNF Objection,. It should be limited to 2.0 m above footway level generally.

This is a major boundary and requires careful assessment of the setting and for the house behind it.

The detailing of the replacement wall appears sound - we hope the steel columns can be accommodated within 'traditional' pier forms.

If possible, some attention to the capping detail, although so many older walls have only brick-on-edge cappings.

Best regards,  
John

Regards,  
John Malet-Bates
