

Dear Mr. Marfleet,

I hope all is well with you and your family and colleagues in these uncertain times.
I apologise for emailing you directly. However, having spoke to the planning department, it was suggested I email you directly, and they provide me with your contact details.

I am the owner of Flat 10 Hill View, 2-4 Primrose Hill Road NW3 3AX. I would have liked to post a comment on the proposed planning permission (2020/0989/P), however have had a total IT meltdown over the weekend and have only just managed to get online again. Furthermore, considering the stay at home instructions, my wife and I now live up the road in Belsize, we did not see the application process until this weekend.

As such, considering the unique situation we are all in, I ask you to please also consider my comments , even though I recognise that the final date for making such comments was April 11, 2020. (Maybe that is the reason I am unable to add comments on the web site directly).

My comments are as follows:

- ∞ They would also detract from the appearance and the character of the nearby conservation area.
- ∞ The harm in terms of visual impact and built heritage outweighs any benefit that the proposals might have in terms of improving local network provision.
- ∞ The proposed structure is far from a cluster of innocuous small base stations
- ∞ They would also be visible when walking up Primrose Hill due to the size of the proposed structure.
- ∞ Primrose Hill is enjoyed and used by so many London residents, who come there to enjoy the beautiful views and natural surroundings. Why would you allow that overall experience be ruined by such structure
- ∞ The aerial masts and associated works would seriously detract from the appearance of the building particularly when viewed from Primrose Hill.
- ∞ I have been a Telecom Research analyst for over 20 years, and my view is that they can provide the same level of coverage using alternative coverage maps that are more inconspicuous and just as efficient.
- ∞ The Residents are against this proposition
- ∞ The Residents Management Company is against this proposal
- ∞ The Applicants do not have requisite legally binding permission to put up this structure

Could you please acknowledge my email, circulate to other relevant parties and add to the official comment file?

I thank you for your cooperation and help in advance.
Stay safe.

Sincerely,
Vivek Khanna
