2020/1596/T	Jonathan Byatt	13/04/2020 12:20:51	SUPC	<p>Can the developer please work with Camden's gardening contractors to recycle the cut sections of tree trunk created by the removal and felling of this particular tree? The height of this 3 suggest there will be a number of tree trunks made available and otherwise removed for disposal. With a simple act of coordination with Camden as contractors these sections of tree trunk can be reused to improve the look and feel of Camden Estates. For example a brick Estate like Southend close can have these re-sited next to children's playgrounds as either an additional play play area or obstacles or as additional seating for parents monitoring their children at play. In this way a benefit is derived from Watford otherwise be be a simple removal and destruction of the tree trunk.</p>
