Dear Planners

Assuming that the closing date for comments should read 26th April, not March, we wish to object to the implicit acceptance that the breaches of the agreed plans for this building need only to be 'regularised' and not reinstated.

We have expressed our concern about this development on several occasions already. We assume the present application is the result of inspectors' visits to see the progress of the work and we appreciate that. Given that the work is not finished, we hope that it will be visited regularly by inspectors until completion, and that any further breaches will not be accepted.

Yours
