2020/0927/P		20/04/2020 15:36:27	COMMNT	<p>I wish to make the following comments regarding the above Householder Application:</p> <ol style="list-style-type: none"><li>1/. This represents a gross " over development " on a very tight site in a heavily provisioned urban area of Hampstead.</li><li>2/. This area is renowned for underground waterways that can cause adverse problems for adjoining and nearby properties when basements are dug under dwellings.</li><li>3/. The adjacent cottages along Willow Road and 33 Willoughby Road are all known to have very shallow foundations that may easily suffer from the basement digging and underground water disruption.</li><li>4/. 31 Willoughby Road is a substantial family house and this application seems to be totally uncalled for, especially as it will most certainly cause many local problems for neighbours if it is given approval.</li></ol>
