Dear Mr Marfleet

I wish to object to the full planning application made by the developers for 89-91 West End Lane NW6. I object on the following grounds:

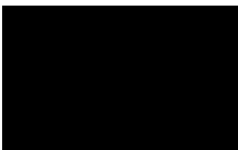

The development is not needed. It will provide less good facilities for the student residents, no communal or outdoor areas. A 1960s building in good repair doesn't need to be replaced.

The proposed building is out of scale with the neighbouring buildings.

The noise, pollution and disturbance for nearby residents will be disproportionate for the addition of two stories and likely to go on for many months. This is a high density residential area and many people will be have their lives seriously disrupted.

Traffic disruption on West End Lane is likely to be considerable and disproportionate for the proposed two stories. This road is narrow and very busy and the need for lorries to deliver to the site will severely disrupt traffic and cause more air pollution as cars wait in traffic queues or at temporary lights. There will be no onsite parking so deliveries will be seriously disruptive.

Yours faithfully

go on for several years
