CDM/H&S:

The works illustrated on this drawing have been reviewed against the Designers CDM Risk Register, document reference KXC-P2-001-ALD816-L-91-001, significant risks are noted as:

Construction:

- Mechanical lifting of heavy materials onto terraces
- Working adjacent building facades on narrow ledges / terraces
- Working above public realm and highways
- Loading over cantilevered corners with strict loading parameters
- On site cutting of fine detail into natural stone paving

Maintenance:

- Working above public realm and highways and below others.
- Cultivation over waterproofing layers and buried services
- Risk of working at height in strong winds

Demolition:

- Risk of void formers breaking down with disturbance
