2020/1525/P	Jonathan Byatt	21/04/2020 10:02:39	OBJ	Due to the nature of considerable changes to the current and established trees, can the owners please work with Camden gardening contractors to assess possible reuse and recycling of the trees to be removed. Within the planning process in Camden, 3 to 10 trees are removed every week (if approved). This is contrary to the policy of achieving a carbon-neutral state, one of the pillars of Camden's future strategy. A simple cooperation between these parties will allow juvenile trees to be reused in Camden's Estates or parks or other open areas, adding and improving quality of life and helping to reduce pollution and the carbon footprint.
