| 2020/1634/L     |                  | 03/05/2020 10:09:53 | OBJ      | <p>FROM THE OFFICERS AND COMMITTEE OF THE LISSENDEN GARDENS TENANTS ASSOCIATION</p> <p>It has been brought to the LGTA Committee's attention that the Corporation of London is planning to install one or more 'Mosquito Alarms' in the vicinity of the Parliament Hill Lido to deter young people from loitering near this building in an attempt to discourage trespass, vandalism and burglary.</p> <p>At its meeting on Wednesday 29th April, the Committee unanimously instructed me to contact you to express our objection to this for a number of reasons:</p> <ul style="list-style-type: none"><li>- The Mosquito Alarm is indiscriminate, affecting all those within range who are able to hear it, whether their business is lawful or not.</li><li>- There can be no guarantee that it will not affect some of the residents of Lissenden Gardens. Some of the gardens, strip gardens and balconies in Parliament Hill Mansions are very close to the Lido, and young residents may be adversely affected..</li><li>- We are aware that some animals, including pets such as dogs, can hear this noise. It is unknown what harm this may cause.</li><li>- There have been a number of studies carried out, such as the German Federal Institute for Occupational Safety and Health's report on The Mosquito, which have raised significant concerns about the safety of the Mosquito alarm.</li><li>- Some individuals, such as those with autism, or hyperacusis, could be particularly affected.</li></ul> <p>We, the entire committee of the Lissenden Gardens Tenants Association, are signing our objection on behalf of all the residents in Lissenden Gardens.</p> |
