Dear Panel Members,

RE: Objection to proposal: Application 2020/1637/P

I am writing on behalf of Castlehaven Community Association with regards to the application from LabTech for retrospective planning permission for 34 loudspeakers.

Apparently, these were put up in the process of doing other work by LabTech. Frankly it was a disruptive and inconsiderate move on LabTech's part in not discussing this with local groups, especially the Hawley Wharf Liaison Group and residents, and perhaps Camden Council itself?

LabTech claim that they have installed these as they would like ambient music to be broadcast around the area. But even the sweetest music played from 10am to 9pm can be a terrible irritant to those that have to live with it for those 11 hours. This would include their own residents, anyone on the towpath, anyone working or studying nearby, CCA itself and Hawley Wharf Primary School.

We think this application should be denied.

Yours sincerely,
