2020/2007/T		16/05/2020 16:58:53	OBJ	It is the green and wooded nature of the South Hampstead Conservation Area which makes it so special. Yet, little by little, planning applications such as this are removing the tree cover from our area. Where a tree is causing structural damage, it has been demonstrated that reducing the canopy and overall size of the tree is the best solution. Removing the tree altogether can often precipitate structural collapse. I would have no objection to a reduction of the overall size of both trees. I strongly object to their complete removal.
