

Annex C1

Model form of certificate
for the design/assessmentⁱ
and/or checkⁱ of highway
structures, including road
and service tunnels

Name of Project 16 Avenue Road, NW8
Name of Structure Temporary Works
Structure Ref No

1. We certify that reasonable professional skill and care has been used in the preparation of the design /
~~assessmentⁱ and/or checkⁱ~~ of the Temporary Works Design associated with the construction of a new basement
structure at 16 Avenue Road, London NW8 with a view to securing that:

i. It has been designed/~~assessedⁱ and/or checked~~ in accordance with

~~The following Standards; or~~

3

The Approval in Principle dated (29 April 2020) including the
following:

5

6

ii. It has been checked for compliance with the relevant standards in i; or

~~The assessed capacity of the structure is as follows:~~

8

iii. It has been accurately translated into construction drawings and bar bending schedules
(~~all of which have been checked~~)⁹. The unique numbers of these drawings and schedules are:

11940/S/131
11940/S/232
11940/S/233
11940/S/431
11940/S/432

TAA

L B Camden

Date

05.05.2020

Notes

- 1 Delete as appropriate.
- 2 Where several similar Category 0 or I structures occur in a project, they may be listed on one certificate
- 3 Used for Category 0 only. Insert relevant current Standards including amendments to date. This certificate should be accompanied by a General Arrangement drawing.
- 4 Not required for Category 0. Insert date of agreement of the TAA by the TAA including the dates of any addenda. Note the MIP is valid for three years after the date of agreement by the TAA. [If the construction has not yet commenced within this period the MIP should be re-submitted to the TAA for review.
- 5 List any Departures and additional methods, criteria or specification clauses.
- 6 For the certification of functions for highway structures, include here the reference number and date of the relevant Safety & Consultation Document.
- 7 Delete for Categories 2 and 3, which require a separate check certificate.
- 8 Used for assessments only. Assessed capacity is to be recorded in the Overseeing Organisation management system for structures.
- 9 The statement "(all of which have been checked)" is not applicable to Categories 2 and 3 design certificates.
- 10 Delete as appropriate or repeat two columns if they are signed by both *Design Assessment* and Check Teams.
- 11 CEng, MICE, MStructE or equivalent, but this qualification can be relaxed for Categories 0 and I with the agreement of TAA.
- 12 A Principal of the organisation responsible for the design or assessment.
- 13 Delete as appropriate. Note: not permitted for Categories 0 or I unless the TAA considers that Departure has little or no structural implication.
- 14 Engineer with appropriate qualification and experience for Categories 0 and I, and with C.T., V/C.T., I/StructE or equivalent for Categories 2 and 3.
