

7 May 1999

Mr. S. Hoets,  
Camden Council,  
Development Control Planning Services,  
London Borough of Camden,  
Town Hall,  
Argyle Street,  
London,  
WC1H 3ND

Dear Mr. Hoets,

**Vernon House, Sicilian Avenue, WC1**

In response to your letter ref: PS9904331, please find enclosed ten copies of Figure 1A which includes a section of external plant. Also enclosed are ten copies each of photographs 1, 2 & 3.

As figure 1A shows, three condensing units are proposed to be positioned at the rear wall of the east tank room. The rear of Vernon House is to the south of the building (the right side of the photograph). The condensing units will not therefore be visible from the street which lies to the north of Vernon House.

Similarly, Figure 1A shows two condensing units are proposed at the rear wall of the west tank room. Photograph 2 shows the elevation of the west tank room. The rear of the building is to the left of this photograph and the condensing units will not be visible from the street. Photograph 3 shows the rear of the building as seen from the rest of Vernon House.

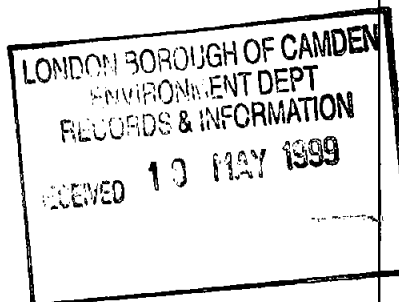

I trust that this information is satisfactory. However, if you have any comments then please do not hesitate to contact me.

Yours sincerely,  
T.G. ARMSTRONG & PARTNERS

R. P. DAVIES
