VOL \_\_\_\_\_  
ACK \_\_\_\_\_  
REFERRED TO \_\_\_\_\_

Dear Sir,

## Sicilian & Vernon Houses

AW/JK/1673

10th July, 1978

We refer to an approval relating to the above premises dated 6th December, 1977 reference number CTP/N14/24/G/25243. In the conditions is a request for information concerning finishes, and they are as follows:-

Approval of details of finishes  
pursuant to cond. pp.  
dated 6.12.77, Reg.  
No. 25243

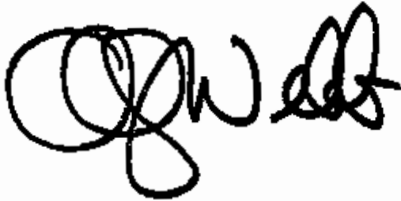

1. The fifth floor enclosure and dormer windows will be constructed in accordance with the enclosed drawings 1673/60 and 83. The mansard will be faced with slate to match the premises on the other side of the arcade named Avenue Chambers, and the dormers will be faced with lead and contain softwood painted window frames to match the general arrangement of the dormer windows to Avenue Chambers, and as shown on our drawing 1673/83. The main roof will be covered with asphalt and finished with a reflective paint.
2. The rear elevation and two lightwells will be finished with tiling to match the bond and, as near as possible, the colour of the existing glazed brickwork on the floors below. A representative sample of the tile is enclosed and our enclosed drawing No. 1673/15A shows the extent of the tiling.
3. The making good to the existing faience will match, as near as possible, the colour and texture of the existing faience. Any new faience panels will match the enclosed sample.
4. All windows will be decorated externally with white gloss paint to match the colour of the windows to Avenue Chambers.
5. All building elevations will be cleaned to match Avenue Chambers.

...../Cont.....

6. The chimneys at roof level will be constructed using fibre glass and these will be installed at roof level as shown on our drawings. The general design of the chimneys will match those removed along the front elevation of Sicilian & Vernon Houses.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'G. W. J.', written in a cursive style.
