Dear Sir/Madam

Re: Application number 2020/1764/P, 17 Oakford Road NW5

I live at 19 Oakford Road (next door to the property in question).

I am concered about the approval of the proposed adaptation of a dormer window, my property, would be overlooked by the new design and my privacy compromised.

I would also like to raise a serious concern about the process surrounding approval of this separate planning application, which seems to have been approved without due time and consideration given to comments and objections. The application for the dormer window was only registered on 28 May and decided on 2 July without the legal time for comments allowed.

There is also a previous planing application for the same property that has not yet been decided on. In regard to the previous application for works on an extension at the back of number 17, I submitted comments and my that any roof terrace that might be be subsequently installed as a result of the existing plans in the future would encroach considerably on my property's privacy and sight lines.

I would appreciate hearing back from you as a matter of urgency.

Regards,
