Dear Katrina Lamont

Re: Application number 20201764/P, 17 Oakford Road NW5

I live at 15 Oakford Road (next door to the above property). In regard to the previous application for works on an extension at the back of number 17, I would refer you to my submitted comments and my stated concern that any roof terrace that might be adapted from the existing plans in the future would encroach considerably on my property's privacy and sight lines.

I have the same concern about the approval of the proposed adaptation of a dormer window, namely that my property, including my roof terrace, would be considerably overlooked by the new design and my privacy therefore compromised.

I would furthermore like to raise a serious concern about the process surrounding approval of this separate planning application, which seems to have been approved without due time and consideration given to comments and objections.

I would appreciate hearing back from you as a matter of urgency. I believe the neighbours adjacent on the other side of the property (number 19) have similar concerns and are also urgently trying to contact you.

Regards,

[REDACTED]
