Dear Chair of Governors,

**PROPOSED BASE STATION AT PROPOSED BASE STATION INSTALLATION AT
15030320_TEF_72750_VF_88298, GRANGEMILL, 6-7 INGESTRE ROAD, CAMDEN, LONDON NW5 1XH
(SITE REF 150303) NGR 528814 / 185803**

Telefónica UK Limited has entered into an agreement with Vodafone Limited pursuant to which the two companies plan to jointly operate and manage a single network grid across the UK. These arrangements will be overseen by Cornerstone Telecommunications Infrastructure Ltd (Cornerstone) which is a joint venture company owned by Telefónica UK Limited and Vodafone Limited.

This agreement allows both organisations to:

- pool their basic network infrastructure, while running two, independent, nationwide networks
- maximise opportunities to consolidate the number of base stations significantly reduce the environmental impact of network development.

Cornerstone, Telefónica and Vodafone are in the process of identifying a replacement telecommunications radio base installation in the NW5 area. The purpose of this letter is to provide you with information on the proposal and the opportunity for you to seek further information should you wish to do so.

The proposal, which we feel is the best solution to serve our customers in the local community, will include:

The proposal is for 12 no pole mounted antenna, 2 no 600mm dishes, 2 no 300mm dishes, together with the installation of equipment cabinets to be installed on a new steel support grillage at roof level and ancillary development thereto.

All Telefónica and Vodafone installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation. A certificate of ICNIRP compliance will be included within the planning submission. In fact, because of the very low power utilised by telecommunications sites the emissions will be many times lower than the ICNIRP threshold.

We would welcome your views (within 14 days of the date of this letter) before we finalise the proposal and submit the planning application to the Local Planning Authority.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'D Perry', is enclosed in a light blue rectangular box.
