Dear Sir/Madam

DECISION

Address:

London
NW3 2PH**

Proposal:

Drawing Nos: Design & access and heritage statement, site location plan, ground floor exist, ground floor propo, ele exist, ele propo, recessed trap door

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Design & access and heritage statement, site location plan, ground floor exist, ground floor propo, ele exist, ele propo, recessed trap door

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent:

The site is a detached house of 1878, listed grade II and making a positive contribution to the Hampstead Conservation Area.

The applicant wishes to install a spiral wine store underneath the floor in a rear wing.

Although the wing is present in 19th-century maps and features what is obviously an original chimney stack, the applicant states that it was altered in 2002. This view is borne out by the junction between the wing and the main house, in which a brick arch around a doorway is intersected by the wall and appears to be supported by listed building consent ref LWX010212.

Consequently, on the balance of probabilities, the intervention is considered unlikely to harm historic fabric. However, the installer has undertaken to stop works if 19th-century underfloor fabric is found.

Being more a cupboard than a cellar, the structure is not considered to harm the spatial character of the room and it will be concealed beneath a trapdoor that matches the surrounding floor, so will not be visually obtrusive when not in use.

The proposed works will not harm the special interest of the grade-II-listed building.

The site's planning history has been taken into account in making this decision. No public consultation was necessary as the proposed works are of an internal nature only.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden

Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
