

## Easieaves Coping System

Generated on 01.08.2018

### Detailed description

A modular coping system manufactured from pressed and extruded aluminium components.

Coping units fit over, and attach onto, a bracket. The system dimensions are fully adjustable, enabling bespoke designs to be provided for each project.

### Product guidance - As Standard

#### Material:

2 mm pressed aluminium sheet.

### Options

#### Finish, Colour:

Supplied with factory applied, polyester powder coatings to BS 6496 and BS 6497 in a range of RAL and BS colours, including metallics. Non-standard colours available at additional cost.
