Details of the pre-application advice received

We have exchanged on this property and are due to complete on July 3rd. Ms Finzi, the current owner of the property knows that we are seeking approval for improvements on the garden building.  
Josh helped us with some advice about the existing garden building as it is a particular case (PEX0300018). He advised us that so long as the existing garden building was used as an ancillary to the main house (and not for other purposes) which indeed is our sole intention, we would just need to ask for planning permission for alterations. We also needed to establish what category the improvements we would like to undertake would be considered as. In this case we would like to improve the insulation from the inside as it currently is rather poor and also replace some damaged glass panels in the roof and repair existing felt roof where there has been some deterioration.  
We did subsequently contact the duty planning office again to try and speak to an officer again as I'm afraid we got confused around the type of planning we should be selecting through this site; I did take the liberty of asking Josh about it but he said he couldn't assist with the actual application. I have yet to hear back from them on this particular point but we were anxious to get the application in as we hope to commence the work as soon as possible.  
Please do let us know should you need any further clarification.  
Many thanks

Yes  No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
